

Wall-mounted version of our popular billboard. The aluminum frames are equipped with snap profiles for quick and easy message changes that the staff can make themselves, completely without the need for ladders with the help of an opening tool. The wall board is now a proven standard product for outdoor display where the most common image size is 3200 x 1590 mm. As an accessory, there is an energy-efficient lighting fixture with LED with very good light scattering, which increases visibility significantly.

Image size 3200 x 1590 mm
