

3-parted Billboard freestanding

19-04-2024

Big billboard where three separate corrugated cardboard pictures are combined together into a single large picture. The image size in combination with the board having a height of about 4500 mm means that the readability at longer distances and in environments with fast traffic is very good.

As an accessory, there is our lighting fixture with LED with very good light scattering, which increases visibility significantly.

Image size 4179 x 2938 mm (3 pieces 1389 x 2938 mm)

Weight About 400 kg

Single / Double sided Single sided

Material Poles and stands made of steel and the cassettes of aluminum

Illumination LED ramp is available as an accessory

Operation The three separate images are pushed into the cassette from below and snapped

Poster recommendation Images printed on corrugated cardboard
