

A double-sided sidewalk sign specially adapted for city center environments as the circular foot makes it easier for pedestrians to pass.

The frame is made of heavy powder coated tubes and it holds a poster frame with snap function on each side. The image is held firmly by the 40 mm wide aluminum profile and it is delivered with environmentally friendly front plastic. Suitable for both indoor / outdoor. Crescent-shaped disk at the top with space for a logo or similar

Image size 50 x 70 cm and 70 x 100 cm

Weight 20 kg and 33 kg

Single / Double Sided Double Sided

Material Steel frame, aluminum poster frames and protective plastic UV-resistant Apet

Mounting In the circular foot there are two brackets in which the side tubes of the street speaker is pressed down

Type of profile Click™

Poster recommendation 0.1-1.5 mm thick paper posters adapted for outdoor use (preferably edge laminated)

Operation Open the profile, lift out the protective plastic, insert the poster and the protective plastic and close the profile
