

The product is available single-sided and double-sided. Because it can be free-standing and also hung from the ceiling, it is often used as a guide and information boards. Depth is found in i.a. 17, 34, 50, 75, 100 and 150 mm. It is often delivered unassembled to keep shipping costs down and to ensure that the product is not damaged during transport. This is especially important when the assembled product is large.

Image size As required
