Menu board Soft

An appreciated menu system that has been used as standard by several fast food chains. The double-sided rotatable menu boxes have a fixed 40 mm wide profile at the top and bottom and the light box image and the protective plastic are pressed under that profile when changing the image.
Starter kit and ceiling / wall bracket are ordered separately as well as wall and ceiling beam

Image size 50 x 50 cm / 100 x 50 cm and 60 x60 cm /120 x 60 cm

Weight about 6.5 kg the smaller models and 12 kg the larger ones

Single / Double Sided Double-sided / rotatable

Material Aluminum profiles, polycarbonate front plastic, MDF board ends.

Mounting Mounted with ceiling brackets in ceiling tracks or with wall brackets in wall tracks

Type of lighting LED

Accessories For each new row of boxes, you need to buy a starter kit and ceiling or wall tracks.

Type of profile Insert

Operation Pull the front plastic out of the lower profile but leave the plastic in the upper profile. Place the poster between the opal disc and the front plastic. Slide the front plastic back under the aluminum profile.

Poster recommendation Pictures suitable for display in lightboxes.
